Dear President

Despite having had ample time to do so, you have offered neither comment nor response to my E-mail to you of 13 June 2022. In fact, you have not responded to a single communication regarding issues of misconduct as taking place within the Law Society of NSW.

As you are quite aware, Terence Goldberg of Turner Freeman Lawyers provided false statements to the Supreme Court of NSW in order to make improper and fraudulent financial gain before carrying out other brazen acts of serious wrongdoing, and doing so while being watched quite openly by the Law Society of NSW and the Office of the Legal Services Commissioner, and with both of those overseeing authorities consistently refusing to take proper action.

Some years ago and before the happening of any of the above, with Mr Goldberg acting equally as brazenly and with us knowing exactly what he was doing, myself and another physically visited the Law Society of NSW seeking guidance in relation to Mr Goldberg's improper conduct. The Law Society told us *"come back when it's done"*.

As you well know, we did come back when it was done, however, were faced with further brazen conduct, this time from the Law Society itself, with the Law Society making false and misleading statements of its own in order to protect Mr Goldberg and his disgraceful and distinctly unlawful behaviours.

Indeed, you are aware, too, of the blizzard of threats as issued by the law firm retained by the Law Society of NSW in attempting to cover up the above, with the most recent being on 25 February 2022, and during your own incumbency as President. Thankfully, that law firm has now fallen silent.

Of course, you are aware that that particular law firm, and despite numerous requests to do so, was unable to provide any particulars of the blanket claims it made against me, nor indeed was it able to provide me with the basis of the Supreme Court proceedings it repeatedly claimed the Law Society was going to commence, and indeed was going to commence against me with no further notice to myself.

So, what does a member of the public do when we have open criminality taking place within the legal profession and equally open improper activity at the Law Society of NSW when attempting to cover up that criminality? Where does one go? Further, you are

fully aware also of Pauline Wright's use of the above said law firm during her own incumbency as Law Society President to issue threats regarding my making public of Mr Goldberg's exploits, with Ms Wright now being a Local Court Magistrate, and with yourself having delivered the swearing in speech at Ms Wright's investiture. Quite obviously, the options for remedy are somewhat limited.

I leave below my E-mail to you of 13 June 2022 with its enclosures intact. As can be seen from such, both the criminality and the corruption is taking place quite openly. Let us call it for what it is.

I copy this E-mail to the Honourable Judge Peter Johnstone, Chief Magistrate of the Local Court of NSW, and also to the Judicial Commission of NSW.

Yours faithfully

Subject: Conduct of the Law Society of NSW - compromising of the integrity of the Honourable Court

To: <president@lawsociety.com.au>

Cc: <chambers.chiefjustice@courts.nsw.gov.au>, <complaints@judcom.nsw.gov.au>

Dear President

On 6 December 2021, I wrote to you directly informing you of improper conduct as taking place within the Law Society of NSW. At that time you were the Senior Vice-President of the organisation.

Quite specifically, I provided you with a copy of three letters to the then President of the Society, Ms Juliana Warner, of 12 November 2021, 18 November 2021, and 19 November 2021, with all of such outlining in very clear detail issues of the covering up of solicitor wrongdoing. As you are keenly aware, there has been a long-running campaign to stifle the content of those same correspondences.

Let us turn our minds to the first of such letters, and I **attach** a copy of same for the reference of those to whom this E-mail is copied. As can be seen on the second page of such, attention is brought to the conduct of Ms Pauline Wright, ex-President of the Law Society, who turned a deliberate blind eye to the fraudulent conduct of Terence Goldberg of Turner Freeman Lawyers during her then incumbency. Sadly, there is little or no

question as to the fraudulent nature of Mr Goldberg's improper activities.

On Friday, 10 June 2022, you delivered the swearing in speech wherein Ms Pauline Wright was appointed as a Local Court Magistrate. You further placed a post on LinkedIn and publicly stated that you were "*Thrilled this morning to be able to deliver the swearing in speech before Her Honour Local Court Magistrate Pauline Wright, former President of the Law Society of NSW.*" (Copy **attached**.) It is evident that you delivered such swearing in speech knowing that the integrity of the Honourable Court was being compromised in your so doing.

Lest there be any question in relation to the fraudulent conduct of Terence Goldberg of Turner Freeman Lawyers, I **attach** affidavit of myself as sworn on 12 March 2022, and a copy of which you have received on a number of separate occasions. As can be seen, Mr Goldberg's conduct constitutes not only a contempt in the face of the Court but also a fraud upon the Court itself, with Mr Goldberg having provided a false instrument to the Court in the first instance to obtain monies by deception, while at the same time breaching an Order of the Court in doing so.

Given the gravity of the matter at hand, I copy this E-mail to the Honourable Justice Andrew Bell, Chief Justice of the Supreme Court of NSW, and also to the Judicial Commission of NSW.

I and a large number of others are appalled at what we see taking place before us, and indeed what is taking place quite openly.

Yours faithfully
